LETS GO PULLING !!!!  
LETS GO PULLING !!!!

### **Pulling Year 2020:**

There was not a lot to report for the 2020 pulling year.. There where a few pulls that happened. All in all it was a quiet year. Hoping for 2021 to be better..

Gave everyone a chance to get their vehicles ready for 2021 pulling season.

### **Important News :**

This issue of the newsletter will contain the schedule which is a **tentative** schedule as classes, times, etc could change.. Watch Facebook, UPM website for changes to the schedule

Also will be included is a 2021 membership form. For the ones that paid for 2020 will be rolled over for 2021.. You will have a membership form stating **Rolled over from 2020 no payment needed..** I would like all membership forms back by March 13th. (Please use the one included) If you did not pay for 2020 it will not be rolled over and you will need to pay for 2021. Any questions contact Penny.

There maybe a annual meeting in place of the banquet sometime before the pulling season starts. I will keep you updated as to when that will be and where as things start to hopefully open up. There will be more information to come

The PF slug rule that was to go into effect for the one year trial for 2020 will be rolled over into 2021. The slug rule has been changed and will read as follows:

“the slug can be removed if you have a 3 X 3 smooth bore housing turbo”

If a turbo larger than 3 X 3 is used, you must use the slugs as indicated in the rule book under sectionXI, pro farm (engine), paragraph #5. The slugs will only be used for the 2020 season, then we will have one turbo rule.

It will be reviewed before Enderle, so we can make the change to the rule book. If there are any questions please feel free to contact the Pro Farm Rep or a UPM Board member.
